

AI Medical Report Analysis

Patient Information

Name: John Michael Doe

Age: 45 Years

Gender: Male

Report Information

Report Type: Comprehensive Medical Laboratory Report (Sample)

Test Date: 03 July 2026

Laboratory: Not Available

Abnormal Parameters

Not Available

Value: 11.8 g/dL (Low)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 4.2 million/uL (Low)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 13,200/uL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 12 mg/L (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 34 mm/hr (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 142 mg/dL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 228 mg/dL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 7.8% (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 48 mg/dL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 1.4 mg/dL (Slightly High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 72 mL/min (Reduced)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 56 U/L (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 74 U/L (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 245 mg/dL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 38 mg/dL (Low)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 162 mg/dL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 218 mg/dL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 5.4 mmol/L (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 6.2 uIU/mL (High)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 18 ng/mL (Low)

Reference Range: Not Available

Status: Not Available

Not Available

Value: 22 ng/mL (Low)

Reference Range: Not Available

Status: Not Available

Possible Conditions

- Type 2 Diabetes Mellitus
